

ACES Screen:

Perform ACES Screen before assisting client to stand. Report any changes in the client's ability to do any of the following:

A = Alert

C = Cooperative

E = Extremities Working

Ask client to lift both hips only if lying in bed

Do both tasks once in sitting

S = Sits Unsupported (hands on thighs)

SAP # 342317 05/19

Side 1

Fall Prevention Questions

Before leaving the room, ask the client if they:

- need to go to the washroom?
- have any pain?
- need a drink of water?
(if not on fluid restrictions)
- have everything they need within reach (call bell or phone)?

Reminder: When transferring a client, use the right:

- number of staff
- equipment
- transfer method
