High Risk Heel*
 * Immobility, leg swelling, diabetes, stroke, delirium, dementia
 or
Existing Heel Pressure Injury

Avoid

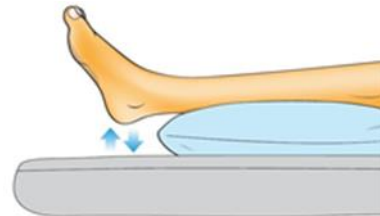

Able to offload heel with pillow?

NO

YES

Apply heel protector(s)
 SAP #209734
 [Site specific details on how to order]

Important

- Educate patient/family about offloading pressure on heels
- Assess skin integrity on heels every shift
- Single patient use only, wipe clean with a damp cloth
- Wear only in bed
- Do not stand or ambulate in boot, risk for falls
