**Subject:** Updated COVID-19 Acronyms in EDIS/ClinDoc

---

New COVID 19 screening criteria have been established effective March 26, 2020.

Please refer to the updated information located at: <https://sharedhealthmb.ca/files/COVID-19-update.pdf>

To support documentation at triage and during the assessment of patients presenting with potential COVID exposures, the EDIS/ClinDoc triage and assessment acronyms have been updated.

The revised triage acronym **.covid19** and assessment acronym **.covid19assessment** can be imported from Brian Sawatzky. Staff who had imported the original acronyms will need to remove their current versions and import the updates. The process for adding/importing/deleting acronyms can be found on the [Acronym Expansion QRG](#).
