Note: This list will be updated by MHSAL Licensing and Compliance Branch as any changes are made. **Agencies that are not on the approved list may not be contracted by the operator to provide services in PCH.**

Procedures:

- 1. Where a new Agency needs to be added (e.g. they are not on the above list), the PCH site lead (prime contact) will:
 - a. Ensure there is a standard contract in place between the Agency and the PCH organization
 - b. send an email to MHSAL Licensing and Compliance Branch at <u>PCH.OneSite@gov.mb.ca</u> requesting a new Agency be added, including the prime contact information (name and email) for the Agency operator and which PCH's the Agency will be providing service to.
 - c. Advise the Agency to identify an employee information uploader (and potentially a back-up/alternate) and request they send the name and email address for the individual(s), as well as any PCH facility/facilities they will be providing services for, to: <u>healthstaffingsupport@sharedhealthmb.ca</u>.
 - d. The system administrator will set up the new Agency, establishing a user account and will communicate by email to the uploader with further directions.
- Where the Agency exists on the list above, but requires access to upload employee information for a **new facility**, the PCH site lead will email the service desk – <u>healthstaffingsupport@sharedhealthmb.ca</u> to request that their facility be added to allow the Agency to upload employee information.
- 3. Where the Agency will **no longer be providing service to a specific PCH site(s)** in the foreseeable future (permanent discontinuation), the PCH site lead will email the service desk to advise that the Agency be removed access to upload employee information for specified sites. This process is important to ensure that the Agency does not continue to get emailed with late submissions for the site they are no longer servicing.
- 4. Where the Agency is no longer going to be providing services to any PCH sites, the Agency prime contact will email <u>PCH.OneSite@gov.mb.ca</u>. to request they be removed from the approved Agency list and the reason for this request. MHSAL Licensing and Compliance Branch will update the approved Agency list and notify the system administrator to remove the Agency.
- MHSAL Licensing and Compliance Branch will forward any changes to the Approved Agency list to RHA leads for distribution to their RHA and affiliate PCH site leads and RHA HR leads.
