- PICKLEBALL

SET THE TONE FOR A HEALTHY COMPANY CULTURE BY OFFERING CURRENT, NEW AND FUTURE LEADERS AN OPPORTUNITY TO CONNECT WITH A HIGH PERFORMANCE COMMUNITY AT THE WWC!

Individual Wellness has a very direct correlation to Corporate Wellness. Healthy and happy employees are productive employees. Investment in our personal health will reap benefits in the health of our organizations.

A company that supports the balance between the employee's career and their personal health and wellbeing is going to be sought after and well-respected, engaging in much bigger dynamics of employee retention and workplace reputation.

By investing in the well-being of their employees, businesses can reap a range of benefits, improved productivity, and increased employee satisfaction, team building and cost savings through employee retention.

Corporate members at the WWC enjoy value added membership rates, enjoying everything the Club has to offer including tennis, badminton, squash, fitness centre, swimming pool, ice rink, pickleball, massage & athletic therapy, social engagements and business networking. The Club offers a wide range of classes, and personal training in all areas and onsite child care for busy families.
