

ACCREDITATION 2024

The Accreditation Canada Survey Visit will take place Sept. 22 – 27, 2024.

We all have a role to play in accreditation.

If a surveyor visits your site, program, or area, remember:

- Be yourself, and continue to do your work as usual.
- Answer the surveyor's questions to the best of your ability.
- Know how to find policy and procedure information.
- Remember, accreditation is not a test. If you are not able to provide any requested information, let the surveyor know, and direct them to another team member who may have the answer.
- Surveyor visits are an opportunity to showcase our services and commitment to quality care.

If you have questions or concerns about accreditation, talk to your manager or supervisor.
