

# Nuclear Medicine

## Description:

Shared Health Diagnostic Services, and the Section of Nuclear Medicine, Department of Radiology, University of Manitoba, invite applications for Nuclear Medicine physicians with special interest/expertise in clinical research related to nuclear medicine to fill our labour shortage in Manitoba. Main job duties include diagnose and treatment of diseases, supervision and interpretation of examinations, commitment to high quality patient care, teaching (undergraduate and post graduate) consulting with other physicians as required, and medical research. Job duties are required in English.

A major university-affiliated centre involved in patient care, teaching and research, St. Boniface Hospital is affiliated with the Winnipeg Regional Health Authority. As a tertiary care facility and home to the regional Cardiac Sciences Program, the Hospital maintains a core of clinical activities, including: anesthesia, diagnostic imaging, family practice, geriatric medicine, laboratory medicine, medicine, obstetrics and gynecology, pathology, outpatient pediatrics, psychiatry, surgery. The Nuclear Medicine program oversees a unique provincial bone mineral density testing program with the largest population-based database of clinical DXA database in the world (over 125,000 examinations). This valuable research resource has over 100 peer-reviewed publications to date. The St. Boniface Hospital Nuclear Medicine program also has active research programs in thyroid cancer and cardiovascular imaging, and extensive collaborations with the world-renowned Manitoba Centre for Health Policy.

The University of Manitoba is a major research university located in the city of Winnipeg. The city has a rich cultural environment with symphony, opera, dance, theatre and ethnic festivals. The region also provides ample opportunities for outdoor recreation in all seasons.

## Qualifications:

The successful candidate must hold a Doctor of Medicine Degree with specialization in Nuclear Medicine. The successful candidate must be eligible for certification with the Royal College of Physicians and Surgeons of Canada, and licensure with the College of Physicians and Surgeons of Manitoba. Dual-certification in Radiology, hybrid imaging experience, post-residency fellowship training and/or research experience would be an asset.

## Compensation:

Compensation is derived from fee-for-service income. Specialty Physicians may be eligible for a recruitment incentive. Please contact [physicianrecruitment@sharedhealthmb.ca](mailto:physicianrecruitment@sharedhealthmb.ca) for further information.

## Primary Site Location:

St. Boniface Hospital - 409 Tache Avenue, Winnipeg, Manitoba, R2H 2A6

## Contact:

Applications, accompanied by a curriculum vitae, a list of publications, and the names of three references, should be sent to:
