# Build a Career in Specialty Nursing!

## PACU

Open to all eligible registered nurses (prefer minimum one year acute care experience) who secure a position within HSC PACU

12 week training program

Financial support: Salary relief duration of program

Online Essentials Critical Care Orientation Program (ECCO)

The combined computer core theory and laboratory practice and clinical specialty components offers a robust entry to PACU nursing

Offered as staff hired

## Emergency

Open to all eligible registered nurses (acute care experience, or new grads who have completed their senior practicum in ED/UC preferred).

Four levels of emergency program education with classroom and on site clinical skill development shifts

**Level 1A:** Introduction to Emergency Department: care of lower to mid acuity patients - six days of instruction which includes Trauma Nursing Core Course (TNCC) certification

**Level 1B:** Care of acute patients in the ED - four days of instruction with focus on monitoring skills

**Resuscitation:** Five days of instruction and simulation with Advanced Cardiac Life Support (ACLS) certification

**Triage:** Three days including national Canadian Triage Acuity Scale (CTAS) Curriculum

Clinical skill development shifts are based on individual experience and learning requirements

Nurses receive full salary during classroom and on site clinical skill development shifts.

The WRHA Emergency Program orientation is designed to enable the nurse learner to further develop their critical thinking skills, assessment skills and application of the nursing process to patients in the ED/UC environment, progressively building on the competency and skills developed over a period of 12-24 months.

All levels are offered several times throughout the year.
