

RL Medication/Fluid Event

Specific Event Type:

- # of events in dropdown reduced
- Process-related events removed
- Problem specific to the "rights of medication practice" targeted as events (i.e. Is it the right patient?, right drug?, right dose?, etc.)

Medication / Fluid General Information				
Specific Event Type	*	Ŧ		
Type of Person Affected	*	•		
Injury Incurred?	*	*		
Equipment Involved/Malfunctioned?	*	•		
Severity Level	*	•		

Medication/Fluid Involved:

- Reporters can no longer type in the medication or fluid name as free text
- Magnifier (a) used to search for a drug or fluid
- # of fields reduced and option to Include route of administration, frequency/rate
- Instruction added: (Please note that if the medication is not found in the database, enter "unknown" ...)

* Click Add to onter mod	ication dotails (Please p	ate that if the medication is n	at found in the database, onter	
nknown" as the generic n	ame, and include the me	dication name in the narrative	e detail)

Medication/Fluid Details:

- Select at what point in the process the event originated from (e.g. happened because of a transcription error)
- Did the patient receive more than one dose?
- If patient received more than one dose, then over what timeframe? (e.g. Select <24 hours, if patient received more than one dose in a 24 hour period)

RL Medication/Fluid Event Form

Searching the database for a medication – Quick Reference Guide

Medication Look-Up:

• Reporters can no longer free text in the generic drug name field

Step 1 – Click the magnifier icon

************ Details about the DRUG / FLUID ADMINISTERED ***********						
Generic Drug Name	(Administered)					
Dose ★	Dose Units 🔸	Route of Administration	•			
Frequency / Rate		Drug Classification	•			

Step 2 – Enter the generic medication name, or a portion of the name (e.g. meto). Then, click "Search Medication" **TIP**: Enter the brand name for combination products

Medication Adr	ninistered S	earch
	Generic Name	meta
	Brand Name	unknown
	DIN	
	Drug Classification	
	Searc	h Medication Clear Fields

Step 3 – Select the medication by clicking the button and hit Accept

	Generic Name	Brand Name	DIN	Drug Classification
۲	netoclopramide hydrochloride	UNKNOWN	9999411	PROKINETIC AGENTS
0	metolazone	UNKNOWN	99995148	THIAZIDE-LIKE DIURETICS
$^{\circ}$	metoprolol tartrate	UNKNOWN	99991820	BETA-ADRENERGIC BLOCKING AGENTS
0	nabumetone	UNKNOWN	9999432	OTHER NONSTEROIDAL ANTIIMFLAMMATORY AGENTS
				# Per Page: 50 ♥ < 1 >

Step 4 – Once selected the drug name populates into the field, along with the drug classification. Enter any additional information in the remaining fields pertinent to the event and hit **OK**. Follow the procedure for all additional medications involved.

TIP: If the search returns "no data", enter **unknown** as the generic name, select and accept. Include the drug name in the "additional information" field for further follow-up.

Reporting a "Near Miss/Good Catch" Medication or Fluid Event

*In reference to when the event was caught <u>prior</u> to the patient receiving the medication.

Medication/Fluid General Information

- If event is not patient-specific, select "Person Not Applicable" for "Type or Person Affected"
- Select "no" for "Injury Incurred"
- Select "no" for "Severity Level"

Medication / Fluid Gene	eral Information	
Specific Event Type	*	
Type of Person Affected	* Person Not Applicable	
Injury Incurred?	* No	
Equipment Involved/Malfunctioned?	*	
Severity Level	★ 0. Near Miss/Good Catch	

Medication/Fluid Involved

- Select "no" for "Was the drug/fluid administered?"
- Search the database using the magnifier for the medication name

Was the Drug/Fluid Administ	tered? * No *
Click on the Mag	nifier Below to Search and Select the Drug or Fluid Name
******************* Name of	DRUG / FLUID INVOLVED *******
Generic Name (Involved)	*
Dosage Form (Involved)	

Person Affected Details

- If the event was patient-specific, enter the last name at a minimum
- If the event is not patient-specific, (e.g. bulk prep of medication), enter "Unknown" as the last name

Person Affected Details				
* * * If the answer for a mandatory field is not known, please enter "Unknown" in that data field.

Note: if "unknown" is left in Brand Name field, specific concentrations of the individual components will not appear.

• If specific components like "potassium", "sodium", "dextrose", etc. are entered into Brand name field, it will help to tailor the searchable items

Med	lication Adminis	tered Search			?
		neric Name rand Name potassium DIN			
	Gaparis Nama	Search Medication Clear Fields	DIN	Drug Classification	
0	sodium chloride, dextrose, potassium chloride	0.15% POTASSIUM CHLORIDE IN 3.3% DEXTROSE AND 0.30	01931741	REPLACEMENT

\circ	sodium chloride, calcium chloride, dextrose, potas	POTASSIUM CHLOR 5% DEX & LAC	00786322	REPLACEMENT PREPARATIONS	

- Examples of other IV fluids that can be found if searched in Brand Name field:
 - a. Lactated Ringers Searching as "Ringers" or "LR" will not bring up any entries
 - b. **Sodium chloride** (0.9% and 0.45% and various combos with dextrose, potassium, etc.) Must scroll down further to view other sodium chloride options available for IV fluids. If users search as "saline", "normal saline", "NS", etc, no entries will appear.
 - c. **Dextrose** Searchable under Generic or Brand Name fields but user will not find if typing in "D5W", "D10W", etc.

How to Search When Spelling Unknown

• User can type partial spelling into Generic or Brand Name fields. Clicking "Clear Fields" first will also help to narrow down options. e.g. clonazepam:

Medication Administered Search						
Generic Name Brand Name clon DIN Drug Classification Search Medication Clear Fields						
	Generic Name	Brand Name	DIN	Drug Classification		
0	clonazepam	ACCEL CLONAZEPAM	02365243	BENZODIAZEPINES		
0	clonazepam	ACCEL CLONAZEPAM	02365251	BENZODIAZEPINES		
0	clonazepam	ACCEL CLONAZEPAM	02365278	BENZODIAZEPINES		
0	clonazepam	APO CLONAZEPAM	02177897	BENZODIAZEPINES		
0	clonazenam	APO CLONAZEPAM	02177889	BENZODIAZEPINES		

How to Search for Vaccines

• Vaccines, like **Spikevax** for example, can be difficult to find. Will only show up if searched in Brand Name field as Spikevax or Generic name as "mrna"

Medication Administered Search					
	Generi Bran Drug Class	c Name mma d Name DIN diffication	n Clear Fields		
	Generic Name	Brand Name	DIN	Drug Classification	
0	mrna-1273 sars-cov-2	SPIKEVAX	02510014	UNASSIGNED	
0	mrna-1273 sars-cov-2	UNKNOWN	9999405652	UNASSIGNED	
	,		# Per	Page: 50 🗸 < 1 >	

NOTE: If "vaccine" is entered into Drug Classification field, it does NOT bring up an exhaustive list. MRNA vaccines have the Drug Classification as "UNASSIGNED".

• If the drug or vaccine is not available using the different search options, enter as "unknown" and add details in "Any Additional Information" field.

Medication Admir	nistered Search		?				
	Generic Name unknown Brand Name unknown DIN ug Classification Search Medicat	ion Clear Fields

O UNKNOWN	UNKNOWN	99999999	UNKNOWN				
Details about the Event **Exclude any reference to the name of the hospital, staff member or affected persons in the details. Enter "none" or "not applicable" if you have no additional information.							
Any Additional Information			*				

Feeding Events

- Should be logged under Provision of Care tile instead of Medication/Fluid. Examples include nutritional supplements, formula, breast milk, etc.
- Specific Event Type can then be selected from Nutrition and Food Services options and if required, further details about the event can be added to the "Any Additional Information" field.
