WRHA Long Term Care

Infection Prevention and Control Manual

INTRODUCTION

Welcome to the Winnipeg Health Region's Long Term Care Program, Infection Prevention and Control (IP&C) Manual. This manual contains evidence-informed guidance to assist all Long Term Care staff in preventing infections.

Infection prevention and control is everyone's responsibility! This manual's goal is to equip staff throughout the region with the competency and comfort to safeguard the health of the individuals who trust us with their care.

Thank you to all the LTC site staff who wear the Infection Prevention & Control 'hat' among many others, the LTC IP&C Manual Working Group, the LTC Program Team, and to the J.W. Crane Memorial librarians who contributed to this manual with their time, expertise, and talent.

"Infection Control is everyone's responsibility"

PURPOSE

The purpose of the Long Term Care (LTC) Infection Prevention & Control Manual is:

- 1. To provide direction and guidance for staff in creating a balance between fostering a home-like environment and keeping residents safe and free from infections.
- 2. To standardize infection prevention & control practices in personal care homes and long term care facilities within the Winnipeg Health Region.
- 3. To provide evidence-informed guidance for the personal care home/long term care facility health care workers.
- 4. To serve as a resource for infection prevention and control education.

From herein the term Long Term Care (LTC) will be used to represent both Personal Care Home and Long Term Care facilities.
