

Performance Status:

WRHA Strategic Directions: Improve Quality & Integration Quality Issue: Access to Service

Standardized Referral Form and Process

WHAT IS BEING MEASURED?

Standardized regional clinical nutrition referral form and process applicable to more than one area approved for use by key stakeholders.

Inventory of referral forms and processes completed(Y/N)

Draft one standard referral form and process completed (Y/N)

WHY IS THIS IMPORTANT?

Standardized referral forms and process will help facilitate patient access to dietitian services within WRHA. This process can be placed on the new WRHA Clinical Nutrition website for patients and health care providers to use.

A standardized referral process is a necessary planning stage to set the foundation for a Clinical Nutrition Central Intake Model.

WHAT IS THE TARGET?

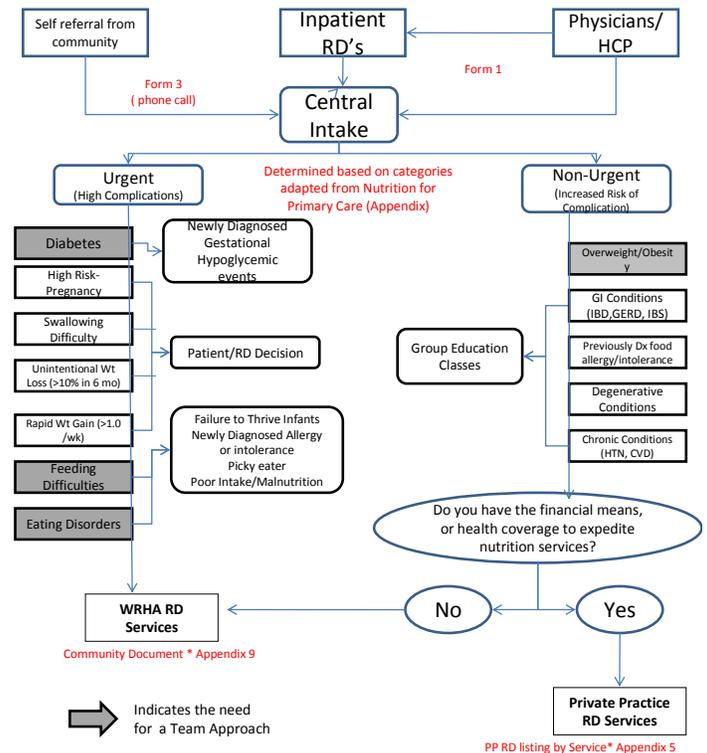

To complete the following:

- Gather current referral forms and information re: referral processes via MPP Dietetic Intern Project Management placement by June 2012.
- Draft referral templates and process by sector by December 2013.

HOW ARE WE DOING?

Standardized referral form and Central Call intake report developed.

Nutrition Referral Process

Interpretation:

Targets were achieved.

WHAT ACTIONS ARE WE TAKING?

Next steps – pilot standard referral form. Implement referral process.
