

Population and Public Health Service Delivery and Professional Practice Model

All Public Health Nurses working within the Healthy Parenting and Early Childhood Development program are to complete the following required readings within 1 month from start date. If the direct links are not working the following documents and webinars may be found on the Manitoba Health Webpage at: <https://www.gov.mb.ca/health/publichealth/phnursingstandards/index.html>

1. Public Health Nurse Professional Practice Model (WRHA): [PHN Professional Practice Model](#)
2. Provincial Public Health Nursing Standards: Prenatal, Postpartum and Early Childhood Development document: [Provincial Public Health Nursing Standards: Prenatal, Postpartum and Early Childhood](#) and;
3. Supplemental document for practice examples:
[Supplemental Document I: Public Health Nursing: Prenatal, Postpartum and Early Childhood Practice Examples](#)
4. Postpartum and Newborn Pathway:
[Newborn Nursing Care Pathway](#)
[Postpartum Nursing Care Pathway](#)
[Prenatal Practice: Evidence Informed Care Pathway](#)

After completing the readings PHNs are to view the Provincial Public Health Nursing Standards: Prenatal, Postpartum and Early Childhood Webinar series:
